MAHMUDUL HAQUE

FULL-STACK JAVASCRIPT DEVELOPER

Next.js • React • TypeScript • Node.js • Express.js • PostgreSQL • Prisma
Dhaka, Bangladesh | +8801717089067 | m.h.upal13@gmail.com | https://github.com/mahmudulhaque13

PROFESSIONAL SUMMARY

Full-Stack JavaScript Developer focused on building and deploying business-oriented web applications and RESTful APIs with Next.js, React, TypeScript, Node.js, Express.js, PostgreSQL, and Prisma. Built ParcelRelay, a multi-role courier and logistics platform with Customer, Courier, and Admin workflows, shipment lifecycle management, payments, authentication, operational tooling, and live frontend/API deployments. Hands-on with JWT, role-based authorization, Google authentication, Zod validation, Redis-backed OTP/session workflows, Cloudinary asset management, TanStack Query, TanStack Form, and Stripe. Backed by 6+ years of professional engineering experience in project supervision, inspection, documentation, and coordination.

TECHNICAL SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, shadcn/ui, TanStack Query, TanStack Form

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Authorization, Google Authentication, Centralized Error Handling

Database & ORM: PostgreSQL, Prisma ORM, relational data modeling, pagination, filtering, sorting, search

Caching & Storage: Redis, Cloudinary

Validation & Payments: Zod, Stripe, SSLCOMMERZ

Tools & Deployment: Git, GitHub, Postman, VS Code, Vercel, Render

FEATURED PROJECT

ParcelRelay — Courier & Logistics Management Platform

Stack: Next.js, React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, Zod, JWT, Google Authentication, Stripe, Redis, Cloudinary, TanStack Query, TanStack Form

• Built a full-stack courier and logistics platform with dedicated Customer, Courier, and Admin workflows, secure authentication, authorization, and role-based access control.

• Designed end-to-end shipment operations covering shipment creation, pricing, tracking, pickup scheduling, courier assignment, hub transfer, failed-delivery handling, and return-to-sender workflows.

• Implemented Stripe payments and secured API access with JWT authentication, Google authentication, Zod validation, and centralized error handling.

• Implemented Redis-backed OTP and session-related workflows and integrated Cloudinary for image and document asset management.

• Developed reusable API capabilities including pagination, filtering, sorting, search, soft delete, audit logging, and reporting.

• Built and deployed the Next.js frontend and Express/Prisma/PostgreSQL backend as separate live applications with connected API workflows.

PROFESSIONAL EXPERIENCE

Assistant Engineer (Electrical) — 13 Fertilizer Buffer Godown Project, BCIC

Apr 2019 – Dec 2021

• Supervised electrical works across 13 project sites, ensuring compliance with applicable standards and project requirements.

• Inspected and verified electrical installations, recommended improvements, and reviewed contractor billing and supporting documentation.

• Reported project progress to the Project Director and coordinated site-level activities across multiple project locations.

Electrical Engineer — Homes Design & Consultant, Dhaka

Feb 2016 – Dec 2018

• Designed electrical distribution systems for residential buildings in accordance with relevant codes and design requirements.

• Monitored and inspected on-site electrical installations and supported implementation of electrical design work.

EDUCATION

B.Sc. in Electrical & Electronics Engineering (EEE) — American International University-Bangladesh (AIUB), 2013

TRAINING

Full-Stack Web Development — Programming Hero

LANGUAGES

Bangla: Native | English: Fluent
